Description of Project and Services Provided :

Projek Lintasan Kota Holdings Sdn. Bhd (PROLINTAS) has been awarded by the government to implement the 25km fully elevated expressway from Sungai Besi to Ulu Kelang. The purpose of this expressway is to relieve congestion at MRR2 and also link up major highway such as Lebuhraya Shah Alam (KESAS), Cheras –Kajang, Ampang, KL Elevated Highway (AKLEH) and DUKE. The proposed SUKE has been divided by two sections namely Section A and Section B. HSSI has been appointed as the Consultant to undertake the Highway Engineering Design for Conceptual and Preliminary Design Stage, Detailed Design and Construction Supervision of the Sungai besi – Ulu Kelang Expressway (SUKE) – Package B.

Services:

- Prepare Preliminary Engineering Design of Civil and Structural works
- Prepare Detailed Engineering Design of Civil and Structural works
- Prepare Bill of Quantities
- Prepare Design Brief for onward submission to LLM
- Construction Supervision.
