

## PROJECT DATA SHEET

**Project Name :** Proposed Kinrara Damansara Expressway (KIDEX)

**Project no. :** 9460

<b>Country :</b> Malaysia	<b>State / Region :</b> Selangor	<b>Client :</b> Konsortium Zabima-Emrail (KZE)
<b>No. of Professional Staff Involved :</b>  15		
<b>No. Of Professional Man- Months :</b>  220		
<b>Approximate Value of Project :</b>  RM2.3 billion		
<b>Start Date :</b>  May 2011		
<b>Completion Date :</b>  Ongoing		

**Associate firms (if any) :**

**Description of Project and Services Provided :**

The project involves the construction of a fully elevated dual two lane expressway approximately 13.5km in length linking Damansara from the NKVE Damansara toll to the Bukit Jalil Highway near Kinrara. The expressway will introduce an efficient alternative route for Northbound and Southbound traffic in the Klang Valley and provide connectivity to existing highways for effective dispersal of traffic.

**Services :**

- Preliminary Design Stage
  - Preliminary Engineering Designs
  - Topographical Survey
  - Soil Investigation
  - Traffic Study and Traffic Impact Assessment
  - Submission of Technical Proposal and Preliminary Costing
  - Preparation of Technical Appendices to Concession Agreement
  
- Detailed Design Stage
  - Highway and Interchange Geometric Design
  - Viaduct, Bridge Design and Retaining Wall
  - Drainage Design
  - Services Relocation and Street Lighting
  - Road Marking, Signages and Road Furniture
  - Toll Plaza, Supervision Building and Infrastructure Facilities
  - Toll Collection System (TCS) and Traffic Control and Surveillance System (TCSS)
